

**For Immediate Release**  
**January 13, 2025**

## **The City of Revelstoke's "Notify Me" Subscription Service**

**Revelstoke, B.C** – The City of Revelstoke has updated its subscription lists for news updates, known as "Notify Me", including a new subscription list for public notices.

Notify Me is a system available for residents to receive email and text alerts from the City. A few improvements have been made to the way information is shared via this system, they are:

1. **A new "City of Revelstoke Public Notices" list.** Public notices (*legislative requirements that share opportunities to participate in local government decision-making and/or share viewpoints*) include updates to bylaws, public hearings, and disposition of land.
2. **One list for "City of Revelstoke News".** All media releases will now be posted to this list, regardless of topic or department. *Please note: "Emergency News" remains as an additional news list, for emergency news only.*
3. **One list for "City of Revelstoke Jobs".** All external City jobs will now be posted to this list, regardless of department.

**The aim is to simplify the subscription process and ensure subscribers get the updates they expect.** The new public notice list aims to inform all interested parties in an easier, more accessible way. For those looking for Public Service Announcements or Emergency Alerts, the "Alerts" list remains available for sign-ups under the "Alert Center" category (see steps below).

### **New Subscribers:**

- Head to [rvst.ca/subscribe](https://rvst.ca/subscribe)
- Click "Notify Me Sign In" and sign in or create an account
- Scroll to the "News Flash" category
- Select "City of Revelstoke News" and/or "City of Revelstoke Public Notices"
- Set spam blockers to allow mail from [listserv@civicplus.com](mailto:listserv@civicplus.com)

**Existing Subscribers** are encouraged to follow the above steps to ensure they continue to receive news updates. The same steps may also be followed for those wishing to update contact information or unsubscribe.
