

## City of Revelstoke Media Release

---

For Immediate Release  
September 17, 2021

### **Revelstoke Local fills Operations Manager vacancy**

**Revelstoke, BC** – The City of Revelstoke would like to extend a warm welcome to Mike Manson, the City's new Operations Manager. After 28 years of employment with the City, we said goodbye to our Operations Manager, Darren Komonoski earlier this month and wish him all the best in his retirement.

Mr. Manson has a long-standing and proven track record as a successful Operations Manager in both educational and municipal environments. His knowledge of water and sewer systems and turf maintenance, coupled with his ability to lead large teams, manage capital projects, execute safety programs, and implement new technologies and efficiencies will serve the community well. Mr. Manson's first day will be Monday, September 27, 2021.

*"I'm excited about this new opportunity and am looking forward to working with the City's management team and working on the challenges that the department and position bring."* said Mr. Manson.

Mike's previous employment with the City of Revelstoke and having grown up in the community provides him with intimate knowledge that will lend to his success in his new role!

*"While its never easy to have a valued employee retire from the organization, we are really looking forward to Mike joining our team. His knowledge and experience will help fill the gap left with Mr. Komonoski's retirement."* said Mayor Sulz.
